REGISTRATION  
REQUIRED

Group attendance will  
**NOT** be eligible for CE

### Program Summary

Heart failure is the leading cause of morbidity, mortality and hospitalizations in older adults. The American College of Cardiology (ACC) and the American Heart Association (AHA) recently came out with new updated Heart Failure guidelines, and this presentation will highlight how these updates should be utilized in older adults.

### Learning Objectives for Pharmacists & Nurses

*At the end of this session, participants should be able to:*

1. Recognize Heart Failure (HF) treatment and guideline updates
2. Recall diagnostic criteria and laboratory findings associated with HF
3. Identify current evidence related to treatment considerations in older adults with HF

### Learning Objectives for Pharmacy Techs

*At the end of this session, participants should be able to:*

1. Recall the definition of heart failure (HF)
2. Recognize HF treatment considerations in older adults
3. Identify medications used in treatment of HF

Presenter:

**Ljubica Minova, PharmD**  
PGY-2 Geriatric Pharmacy Resident  
Cooperman Barnabas Medical Center  
Livingston, NJ
